

Creating new levels in unity

Making new levels in unity is very simple.

Click on the file, top left on the toolbar. And press New Scene.

Select the Basic 2D (Built in), and press create

Now, a fresh new scene might have opened in your project, Just Ctrl+S to save it in the Scenes folder and name it after you level name For eg: Level1

And done! You have basically created a level.

Follow this tutorial, to learn how to make the character switch between scenes in unity:
